THE NEW PORSCHE DESIGN ROADSTER ALUMINUM

The presentation should be used as a guide. An individual check of the exact equipment of the vehicle is recommended.

THE ALL-NEW ROADSTER ALUMINUM. THE TROLLEY, MADE FOR RACERS.

Packed with Porsche DNA: The new Porsche Design Roadster Aluminum Trolley is a masterpiece of manufacturing expertise and innovative design.

No visible rivets or traditional corner pieces, but strong references to the outstanding Porsche heritage instead. The frame: influenced by the Targa bar. The shape lines: inspired by the 911. The suit-case? Crafted with the same 3D-forming technology that's used in the Porsche car production. And the result: A truly reliable travel companion that is as ready for the red carpet, as it is for the board room – and a trip to the beach.

For unparalleled performance. On every road you take.

AT ONCE GLANCE:
THREE SIZES, TWO COLOURS.

The all-new Roadster Aluminum.
